

What You Need to Know About ICER Evaluations

ICER's influence on pharmaceutical policy is gaining traction

The number of assessments more than doubled in the past 5 years

Payers have indicated that they would use ICER cost-effectiveness threshold prices to negotiate contracts.

Key to successful collaboration is being able to provide actionable solutions.

Pre-evaluation preparation

- Review relevant HTA materials
- Synthesize HEOR evidence generated to date

Open Input Period

- Review comprehensive HEOR evidence
- Prepare for response to ICER's request
- Optimize existing models

ICER Scope Review Phase

- Develop shadow model
- Initiate scenario planning

Critical Appraisal

- Critically evaluate ICER draft report
- Draft recommendations for ICER's consideration
- Align stakeholders
